Subject: Grove, one room school

This was my first school in 1929. I was seven years old. The reason being I had to wait until my brother was old enough to go with me. We walked three through the woods to get there. My father home school (not called that then) so that first year I got a double promotion and made two grades the first year.

My father took the turning plow and plowed us a route all the way to school and back(three miles) so we wouldn't get lost.

We lived around Leesville after sometime and went to school there and I do not know how long Grove was active as a school. The teacher there was Miss Minnie Seal. She taught all elementary grades and there were no other employees that I remember.

Dorothy Singletary Richter

Note: I might be the only one still living that went to this school. Ha!
