

Goals

We aim to create high quality programs and services to provide local and regional students opportunities to learn and understand the history of Fort Polk and West Central Louisiana. Through this, our ultimate goal is to create good stewards of history.

The Cultural Resources staff would love to share the rich history of Vernon Parish and West Central Louisiana with your students! We also have trained archaeologists willing to show students real artifacts and teach them about scientific archaeological methods! Please call or email us anytime to set up a program for your school!
